About Anthony's Coal Fired Pizza:

Unveiled in 2002, Anthony's Coal Fired Pizza introduced the concept of coal oven pizza to south Floridians. Led by founder, Anthony Bruno, the vision was to create coal oven pizza delivering a crisp, "well done" taste that rivaled the pies he enjoyed while growing up in New York. Armed with authentic recipes, and now with more than 66 company-owned locations, the Company has continued to grow steadily throughout Florida and up the east coast since that time. The brand prides itself on its award-winning coal fired pizzas, oven roasted chicken wings, homemade meatballs, Eggplant Marino (named after partner and NFL hall of famer Dan Marino), and Anthony's Classic Italian Salad.
