Financial relief is **AVAILABLE NOW**

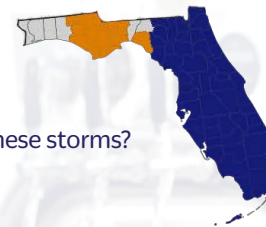

Your business has experienced unprecedented challenges. You've had to face, and make, difficult decisions. Letting go of staff, one of your most valuable assets, is never easy. The good news is that you may be eligible for help!

There's plenty of government funding available, even if you didn't qualify for PPP. Synergi can help you find out if you're eligible.

- Has your business been impacted by COVID-19?
- Have you had to furlough or lay off employees?
- Do you have to interact differently with your customers and suppliers?
- Is your business operating differently today than it was before the outbreak of COVID-19?
- Do your employees have different responsibilities?
- Are you providing Leave Pay to employees with COVID-19, taking care of a family member with COVID-19 or being out to care for a child home from school or daycare?
- Is your supply chain impacted due to COVID-19?

In addition to COVID-19 resources, you might be able to take advantage of other types of relief if you operate in areas impacted by the following disasters:

Hurricanes IRMA, Maria, Florence or Harvey from 2017–2019

- Did you have a decline in revenue or increase in expenses due to these storms?
- Were your clients and supply chain impacted?
- Did you have to operate differently, even for a day, due to the storms?
- Are you in a region that was impacted, even if your business directly was not?

If you answered yes to any of these questions above, you could be eligible for an Employee Retention Tax Credit up to **\$5,000 per employee**, with the value increasing for multiple credit opportunities.

Contact Synergi for your free consultation to discover if you're eligible for any government relief packages!
