- **Thriving with a \$17 Minimum Wage!**

TERRACE BALLROOM A & B

Speakers: **Charles Musgrove** Founder | capserv360

Chad Mackay CEO | Fire & Wine Hospitality

How can the full-service restaurant thrive with tipped minimum wage scheduled to increase 116% through 2026? Learn how a multi-unit independent restaurant owner from Seattle has thrived in the era where minimum wage has increased to nearly \$17 dollars/hour today and on the way to \$18. Over six years ago Chad Mackay and his restaurant group, Fire & Vine Hospitality, changed their compensation model that would chart a course for long-term success. The pivot changed the focus from minimum wage increases to a focus on sales. His team implemented a COMMISSION base pay for servers and bartenders, combined with a service charge. The result has been happy, well-paid employees, returning customers, and increasing profits for the restaurant owners. According to Chad, \$15 per hour is "so yesterday." With the success of this plan and the benefits it provides for employees and owners, Chad and his partners

asked themselves, “Why didn’t we do this sooner?” Check out this session for great tips about the commission plan and why this should be an option you consider now.

Evidence from brain scans shows that emotions directly influence consumers’ decisions.

Nick Sarra COO | Saltwater Restaurants, Inc.
Jorge Rivero President | HR On Demand

Tipped employees can represent a legal minefield of liability for employers. The Department of Labor is in the process of reviving the "80/20 rule" that limits the amount of time (i.e. no more than 20%) tipped employees can spend performing side work or non-tip generating duties, while still allowing their employer to claim a tip credit. Tip pools and tip shares are also a hotbed for potential collective action litigation against employers. Are the tipped employee payment practices of your company in legal compliance? Are you properly calculating overtime for tipped employees and ensuring that all tipped employees are receiving at least minimum wage? Are the practices you thought you put in place actually being followed? During this breakout session, learn best practices from subject matter experts for navigating the ever-changing and often confusing landscape of wage and hour laws regarding tipped employees.
