

## Restaurants Advance

The NRAEF is excited to announce the launch of Restaurants Advance, a national fundraising campaign to help current and future restaurant workers access the education and training they need to put their job or career back on track. Constellation Brands, a leading beverage alcohol company, has committed \$1.75M to support the NRAEF and Restaurants Advance as the industry continues to rebuild and reopen after COVID-19.

Restaurants Advance focuses on three key support areas benefitting both restaurant workers and operators:

- ***Restaurants Advance Futures*** – programs to attract, empower and advance diverse talent pursuing a future in the restaurant, foodservice and hospitality industry.
- ***Restaurants Advance Communities*** – helping employers and communities create opportunities through first job skills training, apprenticeships and professional development.
- ***Restaurants Advance Entrepreneurship*** – putting people from all backgrounds on a pathway to restaurant ownership and/or an executive level leadership position.
