**Give us an example of a standout action or time this nominee went above and beyond. Please limit to 250 words.**

Do you know anyone who works like the postman in rain, HEAT, sleet, snow or hurricane?? Well we do! Ashley came to us as she had fallen on some hard times. She had no means of transportation but her feet. Ashley is one of a kind and that is a fact. She came to us in a time of mutual need. We learned very quickly that Ashley can take on any task fearlessly all while keeping a smile on her face. Ashley has been with us for two years. She is an unmeasurable asset. We can call on her anytime and she never says no even though she has no vehicle, she will come right away walking, whether it's 90 degrees outside or a downpour. She is so dedicated to her job, she walks an hour round trip. She continues to have challenges in her personal life however that does not stop her from getting to work without calling in and on time. We nominated Ashley because she deserves this. She deserves to be seen and recognized for being a hardworking, faithful employee. We hope she never leaves us and continues to be the best version of herself she can be.
